The Middle Canyon Unit agreement provides that the operator will, within six months of the effective date of the unit, commence the drilling of a well of a depth sufficient to test the top 200 feet of the Dakota Formation, but not to exceed a depth of 6,400 feet.

This unit is on the standard unit form and contains the necessary State lands provisions. The following are the State of Utah oil and gas leases located in this unit.

EXTENSION OF TIME ON RIGHT OF WAY *KWH*

..... R/W No. 1371

In January of 1974 the Division of State Lands issued to the Fishlake National Forest a temporary Right of Way for a road to be used only for timber haulage from the Peterson Flat area located on Forest Service land. The State land involved is:

Township 29 South, Range 5 West, Salt Lake Base & Meridian
Section 36: NW $\frac{1}{4}$ NW $\frac{1}{4}$

The original terms of the easement include:

("Grantee agrees that Grantor reserves the right to revoke this easement at the end of any one calendar year and under no circumstances will this grant of easement extend beyond December 31, 1978.")

The Division of State Lands has received a request for a 5 year extension of Right of Way 1371. The continued use would enable the Forest Service to provide haulage for a proposed new timber sale, plant new trees, and gopher control work, on all adjacent forested lands.

The State land involved in this easement is currently involved in an exchange but the Forest Service wishes this easement be extended until the land exchange is consummated. Upon recommendation of Mr. Higgins, the Director approved this extension.
